DR. C. F. P. CONYBEARE DIES SUDDENLY AT LETHBRIDGE

Dr. C. F. P. Conybeare, president of the Alberta Law Society, died of heart failure at his home in Lethbridge yesterday morning in his sixty-eighth year.

He came to Lethbridge in 1886 and practiced law, being created Queen's Counsel in 1894. He was born in England and received his legal education in Winnipeg. Dr. Conybeare was known as the "Father of the Knights of Pythias," and was the author of the Pythian code, copies of which have been distributed throughout Alberta schools. He attended a Pythian "At Home" the day before his death.

NOTICE

A meeting of the Blairmore local first aid association will be held in the general offices of the West Canadian Collieries, Ltd., Blairmore, on Friday, July 15th, 1927, commencing at 8 p.m.

This meeting is called for the purpose of presenting the successful members with their St. John Ambulance certificates; also to organize and prepare plans for the Blairmore teams to take part and compete in the first aid contest to be held in Bellevue on Labor Day, September 5.

Invitation is here given to any other person, residing in Blairmore, with first aid knowledge, to attend this meeting.

MOSES JOHNSON, Chairman.

LOCAL FRIENDS BID FAREWELL TO "NAT" EVANS

A number of local friends of Mr. Nath. Evans, of Bellevue, gathered together on Saturday night last to bid him farewell and on voyage on the occasion of his leaving for his old home in Wales, where he expects to reside in future. A programme of vocal selections, speeches, recitations, etc., was in charge of Chairman Kelly, following which Mr. Evans was presented with a beautiful club bag by Mr. D. Lewis on behalf of the gathering. Mr. P. M. Christophers, M.L.A., and Mr. J. Fitzpatrick were among the principal speakers. All expressed regret at Mr. Evans' decision to sever his relationships with the district in which he had so long resided, and expressed also the hope that Dame Fortune had planned to end single blessedness for "Nat" and that health and prosperity would follow him in his future walk in life.

Mr. Evans had been connected with the Bellevue mine of the West Canadian Collieries as a fire boss for close on eight years, during which time he had figured on a number of occasions in rescue work following explosions or accidents, and also took a keen interest in sport.

He left Bellevue on Sunday night's train for his old home at Red Lion Inn, Llandeleis, Carmarthenshire, South Wales.

The following were among those present: R. Woods, Dave Richards, T. Lloyd, D. Randall, H. Manson, J. Hamilton, George Evans, Joe Fitzpatrick, R. Mitchell, W. Byers, Alex. Cameron, J. Giola, W. J. Bartlett, Dr. R. K. Little, J. McMurchie, Enoch Williams, Geo. Patterson, Pete McPherson, Fred Utley, J. Jenkins, Geo. Sangster, H. McLeod, M. H. Congdon, W. Goddard, D. Lewis, P. M. Christophers and A. J. Kelly.

Mr. and Mrs. J. Boyle and Mr. and Mrs. Steve Roisa, of Bellevue, are this week rejoicing over the arrival by airplane of sons.

Mr. and Mrs. Ed. Royle, Master Willis Royle, Miss Nellie Royle and Miss Jessie Collinson (Hillcrest) motored to Lethbridge on Saturday to spend a month camping at Henderson Park Lake and visiting friends. Ed. returned on Sunday.

JOHN BOVIO VICTIM OF DROWNING AT LEE LAKE

John, the seventeen-year-old son of Mr. and Mrs. John Bovio, of Bellevue, became the victim of heart failure and was drowned while in the act of swimming across a narrow portion of Lee Lake on Friday evening.

Search crews had dragged the lake for hours following, but up to after midnight no trace of the body could be found. At an early hour on Saturday, however, Mr. J. L. Parker located the body from a raft upon which he had undertaken to cross the lake in search, and with the assistance of Jack Gola and other Bellevue friends the body was brought to shore and later conveyed to Bellevue.

Awaiting arrival of relatives and friends from distant points, funeral did not take place till last evening, when a funeral service was conducted at the United church by Rev. Mr. Taylor, of Hillcrest, assisted by the new pastor, Rev. Mr. Wright. Practically the whole of Bellevue turned out to attend the last rites. John was a bright lad and had just about completed his high-school studies and gave promise of a very bright career. He was a member of the senior Tuxis group and one of the boys that put the Bellevue school on top at sport last fall, he capturing a medal for highest score. He was an all-round athlete.

The funeral cortege from the church was made up of over forty automobiles, as well as the members of the Bellevue Italian Society on foot. A large truck was filled to overflowing with beautiful floral tributes of respect and sympathy.

The remains were laid to rest in Bellevue cemetery.

With the bereaved parents and two little sisters, we join in sympathy.

GUDA MARTINI MEETS WITH PAINFUL ACCIDENT

While at work near the tipple of Greenhill mine on Saturday last, Guida Martini had the misfortune to have his foot caught under the wheels of a mine car, badly crushing the member. He was rushed to hospital, where he is since being cared for. It is now thought likely that the foot will be saved.

Guida is a young lad of about eighteen and has been active in all lines of sport. Last season he played with the Tuxis junior hockey team and on several occasions subbed for the seniors.

SALVATION ARMY GOSPEL CAR TOURING ALBERTA

A Salvation Army gospel car left Lethbridge Wednesday for Coalhurst, where meetings will be conducted, going on to Commerce, touring through the Crow's Nest district to Banff, Drumheller, and finally to Edmonton. The purpose of the tour is to carry a religious message to outlying points where people do not have an opportunity to attend church service. The three young men who comprise the company are all musicians and musical programmes are featured.

Most attractive is the official programme of the diamond jubilee celebration at Cardston and would make a most desirable souvenir. The booklet is the work of the Cardston News, contains about twenty pages, mostly programme and contributions from some of the Temple City's best writers on the topic of the day.

In connection with a recent accident in which Ira Rose was killed, a Lethbridge jury has recommended that one Dwight Patterson, a student of Western Canada College and son of a prominent farmer and sheep rancher, be not allowed to operate an automobile for ten years. As an outcome, a charge of manslaughter has been laid against Patterson.

SUDDEN DEATH OF HENRY CERNEY

Henry Cerney, an eighteen-year-old employee of the West Canadian Collieries, Limited, dropped dead, supposedly from heart failure, while following his occupation at Greenhill mine on Friday afternoon last.

Henry was a resident of Frank. Miss Annie Cerney, of the local hospital staff, is a sister.

The remains were laid to rest in Blairmore cemetery on Sunday afternoon, the funeral being largely attended.

The charge against a local citizen of operating a car on Jubilee Day while intoxicated, was dismissed. The case was heard by Mr. Kelly, J.P., and the accused was defended by Mr. J. E. Gillis.

Ernie Whiteside has gone into active training so as to be in A-1 condition on Wednesday, July 20, to make a high record, selling tags for the big stampede. Ernie maintains that he can get into better condition playing golf than under any other system, which he attributes to the mental side of the game, as well as physical. In any case, Ernie will be among those present with bells on. Have your change ready. Let's go! —Strathmore Standard.

EXCERPT FROM LETTER WRITTEN BY J. LEAGUE

Excerpt from letter written by J. League, honorary secretary-treasurer of the Alberta Branch of the Amateur Athletic Union of Canada, under date of July 9th, 1927, to Mr. W. H. Chappell, Jr.:

"On looking over the results of the Blairmore sports meeting, held July 1st and 2nd, I see that some of the running events were done in remarkable good time, and with a little more training and experience the athletes should be able to break some of the existing Alberta records."

William Millar, hotel clerk at the Arlington hotel, Lethbridge, and Anthony Derek, a Danish immigrant, who pulled a fake holdup a few days ago in order to secure a sum of money belonging to the hotel and guests, have been sentenced to penitentiary terms of two years and one year, respectively.

Steve Korek, a well-to-do farmer and U.F.A. member, living in the Strathmore district, first chloroformed and twice shot his sweetheart, Hazel Rison, then shot himself while in an automobile eleven miles east and north of Crossfield on Tuesday evening. Both were found dead, sitting in the car as though asleep.

WORLD HAPPENINGS BRIEFLY TOLD

Building permits for Greater Vancouver during the first six months of this year totalled \$10,361,008.

Frederick J. Dufosse, former Vancouver mayor, has donated to the province his large residence as a home for incurable invalids.

Vicountess Harcourt has been appointed chairman of the council of the Society for Overseas Settlement of British Women in succession to Countess Buxton.

The new \$5,000,000 pier of the Canadian Pacific Railway was officially opened as a feature of Greater Vancouver's celebration of the diamond jubilee of Confederation.

Three hundred designs have been submitted in the contest for the best design for the issue of silver coins which will commemorate the Diamond Jubilee of Confederation.

Officials of the Dominion Government will entertain a group of 100 British newspaper publishers and editors, representing various provincial newspapers, in August. The party arriving at Quebec August 12, will travel from the Atlantic to the Pacific Coast.

Serious depletion of North Pacific halibut is reported by J. P. Babcock, chairman of the International Halibut Commission. Mr. Babcock said the commission would meet fishermen and all interested in halibut, next fall, and then frame an interim report to the Canadian and United States Governments.

Excellent for Croupy Children.
When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the croupy rattle, giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, toothache, neuralgia, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Co-operative Marketing of Livestock
The Province of Saskatchewan now has an organization for the co-operative marketing of livestock. The Saskatchewan Livestock Pool came into being on June 1st and in two weeks time 1,358 contracts were received. Southern Saskatchewan shipments will be marketed at Moose Jaw and northern ones at Prince Albert.

No man or woman should hobble painfully about when there is so certain a relief is at hand as Holloway's Corn Remover.

Shows Rapid Progress
It was only 41 years ago, the last spike was driven in Canada's first transcontinental railroad. Only 30 years ago, the first gold was found in Klondike. Only 20 years ago, two of her great Provinces, Saskatchewan and Alberta were created.

The first railway in the United States was in Boston in 1807, having wooden rails.

HELP WANTED!

MALE OR FEMALE
Earn upwards of \$12 weekly; growing mushrooms for export. No experience in culture, barn or outdoors. Light pleasant work for either sex. Good money now. Illustrated booklet, particulars and terms sent free on request. Write for stamp. Address: Dominion Mushroom Co. Toronto, 5.

A Smart Norfolk Suit
Exceedingly smart is this Norfolk suit. The coat has a wide and plaited front and back, patch pockets, two piece sleeves and a belt. The trousers are pleated or gathered into bands at the lower edge and are finished with a band at the top. No. 1575 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 36-inch material, or 2 1/2 yards 44-inch for suit, and 1 1/2 yards 36-inch lining for coat. Price 29 cents the pattern.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Invents Sea Rocket

Will Carry Passengers Across Atlantic at Terrific Speed Says Professor Goddard
Professor Robert H. Goddard, of Worcester, Mass., internationally famous physicist, experimenting in his Clark University laboratory with the idea of a giant passenger-carrying rocket, having some features of the aeroplane, which will enable man to thunder in the air across the Atlantic at a rate of speed so terrific that the flights of Lindbergh, Chamberlain and Byrd will seem, also, comparatively slow.

"This is no idle dream," he said, "but an actual scientific possibility. The idea of combining rocket and aeroplane is an offshoot of the space rocket on which I have been working for the past eleven years. My own experiments, confirmed by scientists in Germany, Austria and Russia, prove that the space rocket, propelled by successive explosions, is capable of travelling a practically indefinite distance, far enough at least to pass beyond the sphere of gravitational influence of this planet."

Drives Asthma Like Magic.
The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Million in Coffee Industry
There are 50 establishments with a capital investment of \$8,565,438 engaged in the coffee and spice industry of Canada, according to a recent report of the Dominion Bureau of Statistics. These have a gross annual production value of \$14,469,005, in which the value added by manufacturers is \$3,012,770. Imports of commodities under this heading have a value of \$6,791,691, and the only item of export in coffee and initiations, which run to \$18,965 annually.

Boosts Canadian West
Word from Omaha, Nebraska, quotes Roger Babson, noted statistician, in telling a gathering of Nebraska farmers to sell out and go to Western Canada, where farming opportunities are greater.

Most Populous Nation
Although there has been no census, China is said to be the most populous nation on earth. One-fourth of all the people in the world or about an equal number to the population of Europe, live in that country.

Seaplanes Will Patrol B.C. Fishery Areas
Seaplane patrol of the fisheries areas of the British Columbia coast will be resumed this year, it is announced. Permission to carry on the patrol here has been received by Major J. A. Motherwell, Inspector of Fisheries.

The aerial method of fishery protection was abandoned two years ago because of lack of funds.

The patrol will extend from the international boundary in the south to Queen Charlotte Islands and Prince Rupert district in the north.

The planes will be engaged chiefly in detecting fishing during closed periods, illegal fishing inside the Canadian boundaries and the use of long nets.

Kept Minard's Liniment near at hand.

Suggests Lindbergh Monument
Lindbergh monument in the form of the world's highest tower, atop which would be a million candle-power beacon, visible 300 miles away, has been proposed for Chicago by a former chairman of the United States Shipping Board. The tower would be modelled after the Eiffel Tower, which is 944 feet high, but would be nearly 400 feet higher. It would be a beacon for airmen. The proposed structure would cost several million dollars.

A Wonderful Telescope
A giant telescope which is to be erected on Naval Hill, near Bloomington, South Africa, was referred to by Professor Rosseter, of Michigan University, United States, at a university luncheon in Bloomington. It will be possible, through this giant telescope, to discern an object an inch high nineteen miles away, he said, and it will be possible to see in the moon objects the size of a satellite.

A Thirty-Two Years Sleep
A remarkable case of a woman, who slept soundly for 32 years, was reported some time ago from Sweden. Karoline Karlander was a school girl of 18 when she suddenly fell asleep over her books in the schoolroom. She slept 32 years, and when she awoke found that her children and grandchildren were long past, and that she was a middle-aged woman of 45.

WRIGLEYS
SPEARMINT has a tang and zest to brighten your whole day!
It keeps teeth white, soothes the throat, and aids digestion.

Monotony Can Be Overcome

Not Necessary For People To Be Slaves To Their Work
Hard work never killed anyone. Monotony has crushed the souls of thousands. Everybody has to put up with a certain amount of sameness—but that does not say that this is all we can do. After we've done all the necessary and monotonous things there is a whole heap of time left for other things—interesting things, thrilling things, beautiful things.

It comes to this: You can either allow yourself to be entirely governed by your work, whatever it may be, in the home, the shop or the office, or so leave no time for anything else, or you can pack all that into a neat little compartment of its own and then get on with enjoying life.

No matter what your work is you needn't succumb to the monotony. It isn't your every-day task that prevents your doing other things, it's your lack of energy, enterprise—or just pure laziness.

SUNDAY SCHOOL LESSON

JULY 17

SAMUEL ANOINTS DAVID

Golden Text: "Let no man despise thy youth; but be thou an example to them that believe, in word, in manner of life, in love, in faith, in purity."—1 Timothy 4:12.
Lesson: 1 Samuel 16:1-13.
Devotional Reading: Proverbs 2:1-6.

Explanations and Comments

1. Samuel's Mission to Bethlehem, verses 1-3.—Saul had failed to measure up to the standard of what was expected of him. Saul's failure caused Samuel great sorrow. He realized that he must take definite action, about one of the sons of Jesse as the Lord's chosen king. He hesitated to go. Would not Saul kill him if the fact became known? When a man is out of the difficulty came to his mind: as a matter of precedence he would give as the object of his visit the holding of a sacrifice, and would keep silent about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which he was under no obligation to divulge.

"It was not concealment the object of which was to mislead any one, or to induce any one to do what he would not have done had the whole truth been known to him. When concealment is practised in order to take an unfair advantage of any one, or to secure an unworthy advantage over him, it is detestable. But to conceal what you are under no obligation to reveal, which some important and is no mislead, is quite a different thing."—W. G. Dinkley.

Would Honor Canadian Writers

Greater Interest in Canadian Literature Urged By Professor Allison
Allison

Continued effort to awaken interest in Canadian literature was urged by Professor W. T. Allison in his presidential address before the seventh annual convention of the Canadian Authors' Association, which began in Ottawa.

Professor Allison reviewed the work done to educate the general public in Canadian literature of yesterday and today. This, he said, was the outstanding work of the year.

He called attention to the fact that although the country was celebrating the diamond jubilee of confederation, Charles Marj, "the poet who sang beside the cradle of confederation," was still alive and active.

Professor Allison urged that the idea of an annual award for the best native work of the year in either verse or prose, to be known as "the confederation prize," be pressed upon the Government.

Baker's Dozen

In olden days pedlars in broad were formerly supplied with thirteen loaves for the price of twelve, the additional loaf representing their profit. It is also said that to avoid the risk of giving short weight (an offense visited with heavy punishment), bakers were accustomed to give thirteen loaves for twelve. But they don't do it now.

A professor of Dublin University believes the earth may be growing warmer under the influence of radioactive forces.

Suggests Lindbergh Monument
Lindbergh monument in the form of the world's highest tower, atop which would be a million candle-power beacon, visible 300 miles away, has been proposed for Chicago by a former chairman of the United States Shipping Board. The tower would be modelled after the Eiffel Tower, which is 944 feet high, but would be nearly 400 feet higher. It would be a beacon for airmen. The proposed structure would cost several million dollars.

A Wonderful Telescope
A giant telescope which is to be erected on Naval Hill, near Bloomington, South Africa, was referred to by Professor Rosseter, of Michigan University, United States, at a university luncheon in Bloomington. It will be possible, through this giant telescope, to discern an object an inch high nineteen miles away, he said, and it will be possible to see in the moon objects the size of a satellite.

A Thirty-Two Years Sleep
A remarkable case of a woman, who slept soundly for 32 years, was reported some time ago from Sweden. Karoline Karlander was a school girl of 18 when she suddenly fell asleep over her books in the schoolroom. She slept 32 years, and when she awoke found that her children and grandchildren were long past, and that she was a middle-aged woman of 45.

Gum-Dipped Tires
Help You Save Money
The Firestone process of saturating the cords in rubber solution, insulates every fiber of every cord with rubber, minimizing internal friction and wear. It gives stamina to the cords and makes possible the strong, flexible sidewalls of Firestone Pull-Size Balloons, that give you full cushioning on rough roads—absorbing the bumps and bridging the ruts. The scientifically designed Firestone Balloons tread grip the road—resisting skid and giving traction in slippery places.

Firestone Balloon Gum-Dipped Tires on your car will deliver greater safety and comfort and materially lower your tire cost. The nearest Firestone dealer is equipped to serve you better with these better tires. See him now.

Scope Of Department Of Health Increased

Welfare of Canadians is Being Well Looked After
One of the most essential duties of a government is the proper protection of the health of its people. This thought became so forcible in its demand for action that a Department of Health was formed at Ottawa in 1919, its primary factors being derived from other departmental branches concerned with health matters.

Since its inception the scope of the department has gradually increased, and now in Canada's Jubilee year, we find strong, concentrated effort working for the welfare of Canadians through the medium of the Health Department.

The Quarantine Service of a country stands for protection against the introduction and spread of contagious diseases. In this connection there are in operation in this country organized quarantine stations. Every port of entry through its custom officer acts as a substation.

A medical inspection of immigrants is carried on at all ports of arrival and immigrants must be medically examined. Immigrants are prohibited from entry.

The suppression and control of the narcotic drug traffic has a world-wide significance, and Canada, through this department is well to the front in the work accomplished. Approximately 253 pounds of opium, 250 ounces of morphine and heroin, and 127 ounces of cocaine were seized in Canada during the past year. No less than 368 aliens were deported from Canada, after conviction for various offences under the Act.

CHAPTER III.—Continued

Helmi had the quality Miss Abbie lacked; she was a brain of a different kind. Miss Abbie read it in her eyes, in her carriage, in her pose, and for that reason she was attracted to her. All her timid life Miss Abbie had craved to be fearless and unconcerned about public opinion. That was the biggest thing in life, not to be afraid of anyone. Miss Abbie had heard it put very wickedly once. It made her shudder at the time, but it fascinated her too—"So live that you can look the whole world in the face and tell it to go—Miss Abbie could not even think the word. She struck the horse with the lines instead. He, believing her to be merely knocking off a fly, switched his tail appreciatively.

Miss Abbie would adopt the girl; yes, she would. If the girl was open for adoption she would be adopted by Miss Abigail J. Moore, Esq.

Helmi directed her to the Yale Hotel, and Miss Abbie, tying Jasper to the ring in the sidewalk, entered. "Tying Jasper anywhere, at any time, was what is called now a complimentary gesture."

They entered. Helmi, striding through the front corridor down the narrow hall, where coats and hats of the dinnering and so through to the kitchen. The "help" were not allowed the use of the front door, but Helmi reasoned that on her off day she had temporarily ceased to be help. Therefore the front door.

Miss Abbie, following with her new resolve, was brave even to recklessness.

"I found this young girl being chased by two young ruffians, and brought her home," said Miss Abbie to the cook, who looked up from the floor with a long complacent can-opener in her hand. "I would like to know more about her if I may. She interests me. I am a worker among girls. She speaks no English, I am sure."

Maggie Konyu politely handed Miss Abbie the one apron chair, and laid down the can-opener before replying. "It's little 'P' know myself, m'am, only that my sister in St. Paul sent her to me to look after—and it's a beautiful she is, Maggie, she's a good girl as I ever saw in her work, and smart and—well—She's a queer girl in the sudden way her temper rises."

"Do you think I might have her to come and live with me? I am all alone and have a little means," Miss Abbie blushed becomingly. "She seems so lonely here, not able to speak, that I feel sorry for her and, besides, I need someone. I would be good to her."

Maggie considered the petitioner critically.

THEY SUFFER NO MORE

Two Women Owe Health to Lydia E. Pinkham's Vegetable Compound

St. Adolphe, Manitoba.—"I was very weak and had great pains during my periods. I could not sleep the night of the pain. The pains were in the right side and extended to the left and then down. It seemed in character with the St. Adolphe, Manitoba. The doctor sitting by the sick child; Wellington, with dead upon under her horse's feet."

Found Great Relief
Toronto, Ont.—"I am at the Change of Life with hot flashes, dizziness, weakness and nervousness. I had head noises and was short of breath. This was the way about six months when I read about Lydia E. Pinkham's Vegetable Compound in the paper. I have taken eight bottles so far and found great relief."—Mrs. R. J. S. 242, 115 Lasker Ave., Toronto, Ont.

W. N. A. 1039

for she had looked into which did not make her face look wary. How, ever, when the minister's sister, the psychoanalyst, pointed out to Miss Abbie that Helmi seemed to be growing conscious of her personal appearance Miss Abbie dismissed the matter lightly.

"One must not blame her, Miss Terry," she said in that sweet tone she always adopted when she was working toward a climax; "the curves of a young face are good to look at. There are certain privileges we must accord to youth, my dear. Now, with me and the glass cannot exercise the same fascination, though, I fear it will not be counted to us for righteousness that we resisted."

Miss Abbie noted with some alarm the progress Helmi was making in adapting herself to her new life. Helmi's hair was no longer brushed straight back, braided and tied with a black ribbon. It came down over her ears now in the "blows" so favored at that time. The high collar on Helmi's print blouse had disappeared, and quite sufficient white neck was revealed; and when she took her down to see the stores she noticed how she looked in front of the pretty dresses, and when they came to a military window Helmi stopped so suddenly that Miss Abbie collided with her and Helmi did not even know it!

Miss Abbie felt herself at a loss to know what to do about this. Suddenly Helmi had a deep love for fire, and Miss Abbie trembled for her when she thought of the evils that are in the world. "And I don't blame her," she thought, "it's all mine fault after all. They want to see women dressed up like peacocks; they won't take much notice of them if they are not. I know I was always the homespun, flat-headed, rainy-day-hat kind, and what good did it do me? Still, she will have to be guided."

When Miss Abbie went into the kitchen to tell Helmi what to get for dinner she found her busy palishing the tin diploids so that she could see her face in it. So absorbed was she in her pleasant task she did not hear Miss Abbie coming.

Then and there Miss Abbie decided in favor of "snuff brown" for Helmi's gingham dresses. She had thought of having her burnt orange. Across the corner from Miss Abbie's print little house a shingled bungalow with mullioned windows raised its asymmetrical roof among the trees.

Miss Abbie said it looked like a California house with its sun-jacks in front and sleeping verandah screened from the world with green and white canvas at the back. It was set exactly in the middle of the plushy lawn with blue bushes at intervals all round the house; a Maltese cross of red and white geraniums; a hedge of blue delphiniums in front of the lattice fence which divided the front lawn from the back garden; window boxes of red geraniums, white daisies and blue forget-me-nots; and down a summer-house grown over with clematis vine, a carapana hedge, neatly trimmed to that flat surface so much coveted by hedge growers. It looked, indeed, like the perfectly kept home of a substantial citizen.

(To be continued)

Miss Abbie's house reflected her excellent character. She believed in doing things about her plain but this gave any clue to the initials, of their names remains a matter of doubt.

Miss Abbie's house reflected her excellent character. She believed in doing things about her plain but this gave any clue to the initials, of their names remains a matter of doubt.

"That's Mother, the winter before she died—it was working on her then, but we didn't know it. This is a picture taken when he lay on his death-bed. The man came to the house."

This is Aunt Mary. She ain't lookin' very cheerful but you can't wonder; she went straight from the doctor's office when he told her he was afraid she hadn't very long to live. This is my youngest sister. She never was strong; her kidney floated all the time and killed her at last. She knew it was gettin' worse, so she got one of those for each of us the last Christmas."

In Miss Abbie's family it seemed that a photograph was something of an "intimation."

Her steel engravings were sombre in character—The Stag at Bay, black, lonely, desperate; The Doctor sitting by the sick child; Wellington, with dead upon under her horse's feet."

Helmi now for the first time in her life had a room to herself, and her own little bed, a gorgeous one in her eyes with its chapter of white engravings dotted with a bow of brass ribbon at the head and foot. The top quilt was a patchwork of blue and white, in the pattern known as the "Pavements of New York," and for chilly nights there was a small elder-down flowered in apophony.

Miss Abbie was grieved to see in Helmi a growing tendency to stand before the mirror. In the clawfoot stand, which was attracted by what she saw there, for it was the first mirror

How To Plan Garden Pathways

Planning of Pathways May Work a Transformation in the Garden
Thoughtful and clever planning of pathways may work a transformation in a garden writes Charles Wellford Leavitt in the July number of "Arts and Decoration Magazine." Ingenious winding and curving paths may make a tiny estate seem much larger, and interest and variety to what is really a small plot of ground, leading to ascents and surprises pleasantly arranged, he continues. "Paths may be made up a large and imposing estate, giving portions of it an intimate secluded air, leading to others the dignity of a Versailles, making small-rooms and gardens within gardens."

"We think of gardens largely in terms of trees and flowers, yet a garden would be almost a picture to be observed from porch or highway were it not for the paths that entice us to enter and wander. Paths are the arteries of the garden through which life passes. Paths persuade first the eyes and then the feet to exploration, and lead one on and on. Here is a broad gravel pathway that leads to a terrace. What lies beyond? We must investigate. There a tantalizing series of stepping stones dips behind the trees—a path to wanderlust."

A Musical Education

Fond Parents Very Frequently Nip Budding Musicians

If 94 per cent. of the young hopefuls whom fond parents consider embryonic Palestrinas drop by the wayside before their first note is reached, the fault lies mainly with the same fond parents in the opinion of Nancy Armstrong, writing in the July issue of "The Musical Observer."

"My best slight reader," says Miss Armstrong, "have been in the family where the mother and parents did not know music. My pupils from six years and older, of average mentality, who do not have supervised practice have none far ahead of those who have had at least practice periods."

Miss Armstrong points out that as the parents usually expect some results after the first few lessons the child is often taught pieces simply by rote. She says, "the longer a child is taught by imitation the more difficult it is to teach him to read music, as he has learned that he can play without bothering about the notes, and the attention remains where it was at first focused, on the hands and keys."

Miss Armstrong points out that as the parents usually expect some results after the first few lessons the child is often taught pieces simply by rote. She says, "the longer a child is taught by imitation the more difficult it is to teach him to read music, as he has learned that he can play without bothering about the notes, and the attention remains where it was at first focused, on the hands and keys."

She says, "the longer a child is taught by imitation the more difficult it is to teach him to read music, as he has learned that he can play without bothering about the notes, and the attention remains where it was at first focused, on the hands and keys."

Newspapers Good Educators
The matter of the only reading matter of many adults. Children who learn to read newspapers intelligently, discriminating between the important and unimportant, have acquired the basis for a liberal education which will grow broader and richer with every passing year. They have acquired the habit of really thinking about what they read, discerning from it the trend of history, the march of science and the progress of the art of living.—Cleveland Plain Dealer.

Breaking the News

The troupe of performing animals were to be presented to the public at an Irish music hall, when tragedy stalked, and the hyena died. The Irish music hall was a tragedy, discriminating between the important and unimportant, have acquired the basis for a liberal education which will grow broader and richer with every passing year. They have acquired the habit of really thinking about what they read, discerning from it the trend of history, the march of science and the progress of the art of living.—Cleveland Plain Dealer.

The largest basket in existence recently was exhibited in New York. After the dimensions of railroad tunnels had been determined, it was sent across the continent on a flat car.

Diarrhoea Summer Complaint HE ALWAYS USES

DE FOWLE'S WILD STRAWBERRY

Mr. T. F. McGregor, McLennan, Alta., writes: "I have used your medicine for over forty years. I have used it to give me Dr. Fowler's Extract of Wild Strawberry for diarrhoea and other troubles. It has cured me of many ailments since then. I have been a sufferer from diarrhoea for many years, and I have used your medicine for over forty years. GOVERNMENT HIGHWAYS

No doubt it was due to the enlightened initiative of the federal government, in making grants for permanent highways, that the provincial legislatures have adopted road-making policies, which have gone some distance towards redeeming the Dominion from the charge of being a land of magnificent scenery, fine opportunity, and wretched roads.

Perhaps not enough attention has

been given as yet to cross or side-roads, and in comparison too much money spent upon arterial highways, but that was inevitable at first, since no provincial legislature is overburdened with funds, and a beginning had to be made with what might be styled trunk-roads.

In the opinion of many, the federal government withdrew its financial aid prematurely, and by so doing has halved unduly the important work of enabling the back lot farmers to market his produce in the most profitable and convenient manner.

It is economically imperative that the upkeep of permanent highways should remain in the hands of provincial authorities. These roads are expensive undertakings and cannot be permitted to fall into disrepair, as they soon would if left to the untrained care of the average township authorities.

Expensive machinery and scientific knowledge is necessary to maintain the road surface in such repair as modern motor-driven vehicles require for most farmers use automobiles.

motor trucks nowadays.

More permanent country roads, and continued government care of them, will have to be the slogan of provincial administrations for some years to come, and along with that should go such common-sense restrictions as shall prevent selfish joy-riding idlers from tearing up the surface of the roads and endangering the lives of those using the roads legitimately.—Family Herald and Weekly Star.

GENERAL MOTORS ADDING

TO OSHAWA PLANT

Huge machines that exert the pressure of a descending avalanche will stand side by side with delicate instruments that trace the most intricate design in the great stamping mill which is being erected in Oshawa, Ontario, at a cost of more than \$600,000, to manufacture fenders, radiator shells and other parts for Canadian automobiles.

The necessity for the new factory is a tribute to the success of the policy of building cars in Canada for Canadians. This necessity has arisen from the increasing volume of Canadian-built cars sold each year. Although General Motors of Canada in the last eight months have spent more than \$1,800,000 on increased factory space, the desire to increase Canadian contents in the cars decided the company to erect the new stamping mill.

When this latest addition to the General-Motors plant is completed ten weeks, hence it will be the most imposing and most modern factory of its kind in the Dominion. Fifty great presses—some of them twenty feet high and twenty-five tons in weight—will turn out fenders, doors, radiator shells, hoods, gasoline tanks, running board aprons and other parts at the rate of more than six hundred a day. With the assistance of three large overhead cranes, running on rails with a span of twenty-two feet, raw material will be unloaded at one end of the building, and finished products will go out at the other, saving the cost of the enrolling plant.

Made-in-Canada motors will drive all machinery in the stamping mill, developing a total of 1500 horsepower. The building will be of brick, steel and concrete construction, and containing 80,555 feet of floor space, most of which will have to be heavily reinforced to carry the weighty machinery. Portions of the building, aside from the stamping mill proper, will be occupied by additions to this factory, a solid block of new buildings will stretch for more than three city blocks. Vivid evidence of the popularity of Canadian-built cars.

THE UNITED CHURCH

OF BLAIRMORE

Through the courtesy of the editor of this paper, a column will be reserved each week wherein will be found items pertaining to church work, happenings in and around the church, together with the minister's announcement re services for the week. We thank Mr. Bartlett for this privilege and hope the column will prove of interest to all who read it.

Services for Sunday: next—

The morning school will meet at 11 o'clock. The subject for the young people's group is "Loyalty to Christ in the modern missionary enterprise." It is one of the services of studies of Modern Missions.

The afternoon school meets at 2 o'clock. Mr. Smith will have a story to tell the boys and girls.

Evening worship at 7.30. The singing will be led by the Young People's choir. Mr. Smith's subject will be: "Even Christ Failed."

For the next six weeks, a special feature of the Sunday evening service will be the

"Hymn Sermon and Story."

Each evening the story of one of the great favorite hymns will be told and then the hymn sung. The hymn for next Sunday evening will be: "Nearer My God to Thee, Nearer to Thee."

The induction service of the Rev. J. W. Smith, which took place on Friday night last, was very well attended and enjoyed by all. The addresses by the Revs. Garden, Griffith and Bevan were greatly enjoyed as were the few words from Rev. Mr. Smith and Rev. Mr. Taylor, of Hillcrest. At the close of the service, the Ladies' Aid served a splendid lunch, and everyone was given an opportunity to meet the new minister.

A fairly large congregation greeted Rev. J. W. Smith on Sunday night last on the occasion of his initial service. Mr. Smith is a forceful speaker and prospects are that services at the United church will be well worth attending. At the close of the service arrangements were made for a meeting of the Official Board to be held on Wednesday evening.

Rev. J. W. Smith spent Monday last with the Rev. J. H. Garden, at Pitcher Creek.

Mr. Smith had charge of the afternoon service at the girls' camp at Lee Lake last Sunday.

Mr. Dicken, choir leader, will commence training a junior choir tonight to take the place of the senior choir during the summer months.

The Official Board met on Wednesday evening last. This body comprises the following: Members of the Session, the Board of Stewards, president of the Ladies' Aid, choir leader and the Sunday School superintendents. The minister is chairman of the board. Several important items of business were transacted at this meeting and various plans formulated for future work in connection with the church.

In future reports will be given of details of plans as they are worked out by those who have them in hand.

We cannot let this opportunity pass without a word of thanks to the Ladies' Aid for the manner in which the church building has been renovated. It is due to their energies entirely that the church has been so thoroughly cleaned and decorated and we all feel a debt of gratitude to them for this renovation. We would also like to congratulate Messrs. Hughes & Berlin for their work, which is splendid in every way.

Might we say, in this our first column, that all are invited and specially welcome at the church services and we will be pleased to receive word of strangers coming to the district or any other item that might prove of interest to our readers. Word can be left with the minister, Rev. J. W. Smith, or with the church reporter, J. B. Harmer.

This is our church column, let us use it to the best possible advantage.

Cardston's tax rate, municipal, has been set at 35 and one-fortieth mills.

Mr. and Mrs. Charles E. Bowker and son Archie, of Rimbey, Alberta, were visitors this week with Mrs. Bowker's brother here, Mr. George Bowker, being their first time meeting in twenty-five years. Mr. and Mrs. Bowker are motoring around the Banff-Windermere trail.

Mr. and Mrs. Fernie Beck are holidaying at the home of Mr. and Mrs. A. Beck, Coleman.

Mrs. Alex. McPegun and children, of Drumheller, are visiting here with Mrs. McPegun's father, F. S. Ka-foury.

CANADA'S DAY

(By "DUX")

Ring out, ye bells; triumphant be your strain!
Let banners wave, and choirs of children sing.
Let echoing voices bear the glad refrain,
While young and old their joyful tribute bring.

And let a prayer be said, in thankful praise
For three-score years of guidance, unto God,
Whose hand has been about us all our days,
Whose love directs the path our feet have trod.

Let us remember those who dreamed the dream
Of joining this vast realm, from sea to sea,
In one communion, by a mighty scheme
Which made men equal and which kept them free.

Threatened by foes without and foes within,
They sacrificed their all to serve the state;
We hail them prophet-statenmen, and begin
To venerate their lives, so grandly great.

They took their cause, with one united voice,
And made their plea to that grey Parliament
Which with its laws makes captive souls rejoice
To come beneath its shadow, and live content.

The Motherland with wisdom true decreed,
As the request, so should the answer be,
And this for all our nation is the seed
From whence has sprung our glorious Liberty.

And, lo! they builded better than they knew:
Now stately cities stand where hamlets stood,
And fertile farms, where ancient forests grew,
Give greater wealth and serve the common good.

The prairie lands, where rampant the buffalo
Are conquered by the plow, and yield their grain,
And where the creaking ox-cart rambled slow,
Now speeds that shining miracle, the train.

The mines give up their minerals; and the streams,
Which unseen roared their rugged strength away,
Transmute their energies to lightning gleams,
Which pass unseen and magic powers display.

But greater far than lightning enterprise,
That transformation of the country's face,
Than aught of temporal gain, our spirits prize
The union of the new Canadian race.

The pioneers have passed, but still abide
The spirit and the courage to endure.
The qualities of soul that safely guide
Our nation's steps and make it dwell secure.

The Anglo-Saxon and the Alen blend;
'Tis but prophetic of the days to be,
When war and all its sacrifice shall end,
And Brotherhood shall reign eternally!

The above is the second of two prize winning poems written by Mr. Eric Muncester, vice-principal of the Blairmore public schools.

BLAIRMORE ALBERTA

C. G. I. T.

The Lee Lake camp for 1927 met on Monday, July 11th, under the leadership of Miss M. Nix.

The first day was spent in gathering boughs and hay for our beds; also the girls were divided into four tribes, each given an Indian name. Tribe one, under the leadership of Miss Nix, who is known as Great Chief. Two, under the leadership of Mrs. Griffiths, who is known as Big Chief Berry, is known as The Berries. Tribe three, under the leadership of Miss McDonald, as Big Chief Ade, is known as The Ade; and tribe four, under the leadership of Miss Dunlop as Big Chief Can, is known as The Cans.

That evening was spent in a singing around the campfire. At 10 o'clock each tribe went to their own tent and passed into the realms of silence—about two o'clock.

The second day, the whistle blew at 7 o'clock for us to take our morning jerks and dip. When we came back from our dip we had fifteen minutes of morning watch, then recited the poem of "Salutation of the Dawn." Then saluted the flag and sang "O Canada." After that we went for breakfast, which was very good. Then each tribe went to their tents to make the beds, following which the whistle was blown for Bible study, which was held around the campfire site, led by Miss Nix and greatly enjoyed by all. Then each tribe went away with its leader for discussion. After this, each tribe came to the campsite and formed a council ring, in which the following elections were held:

For president or Great Brave, Jean Patterson; for secretary or scribe, Ruby Howe; for chief editor, Alice Hamilton; for camp mother, Mrs. Bevan; and for cook, Mrs. Fairful.

Games were played for about fifteen minutes. The whistle blew for dinner. It was decided for this day that four girls should wash all dishes. Rest hour was held after lunch, and at the end of this period we went in swimming. Games were played until supper time. That night at 7:30, the initiation was held around the campfire. Great Chief Ade presided. Each old brave had a blanket wrapped around her and each new brave carried her blanket and each girl a small stick. After a fitting speech by the Great Chief, each old brave put her blanket around a new brave and the members of each tribe presented their sticks to their own chief, who in turn presented the bundle to the Great Chief to be laid on the fire. Fire was then kindled and this action concluded the initiation of new braves. The sticks represented the pledge of loyalty to the tribe. After singing songs around the campfire, the tribes prepared for bed.

The same routine was followed on Wednesday, except that this was visitors' day and sports were held in the afternoon. In the evening, stunts were put on by each tribe, which afforded us a great deal of amusement. A number of people came down to listen to the programme. When the visitors left, we had a few songs and then closed with the evening vespers.

Thursday morning and afternoon was spent in the same manner, but Thursday evening was especially interesting, when we had our treasure hunt. Bessie Cooper was the successful hunter and shared with the other five-direction hunters the treasure, which was one dozen chocolate bars. Instead of having supper, as usual, on Friday, we went about a mile and a half for a bacon bat. We left camp about five o'clock. Bread, bacon, butter and desert of short bread comprised our supper.

The outstanding characteristic on Saturday was the treasure burying ceremony.

JEAN PATTERSON, Pres.
RUBY HOWE, Secretary

Miss Nix, who had charge of the girls' camp at Lee Lake last week, returned to Blairmore on Sunday and spent the evening with Rev. Mr. and Mrs. J. W. Smith, leaving on the night train for other fields of labor.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1912) May 23—Mayor Harry Lyon sprang a great surprise on the council at the meeting on Monday evening when he informed them that he would not attach his signature to a cheque in payment for lots for a firehall site, as passed unanimously at the previous meeting. He felt that the council should accept the free site near the telephone office offered by the West Canadian Collieries, which offer the ratepayers had signified a desire to accept. Mayor Lyon desired that to settle the matter, the question be submitted to the lieutenant-governor of the province or to a referendum of the ratepayers. The site the council proposed to buy was known as the Malcolm property on Sixth Avenue.

Lee Tuck and Lung Tan, proprietors of a local laundry, claimed they were both "dead broke" and preferred to go to jail if convicted on the charge of perjury.

A resolution was passed at Monday night's meeting of the council to have plans drawn for a fire hall to cost in the neighborhood of \$5000.

Tom Cyr has been awarded the contract to build a tipple for the McGillivray Coal Co. at Coleman.

A. Rollins Melish, late editor of the Rediff Review, is in town and is filling an important position in connection with the construction of the telephone cable from Blairmore to Coleman.

A. W. Robbins, of Pincher Creek, has opened up an auto garage and is lively stable here and hopes to receive a share of the large trade offering.

Lots on the Hillcrest townsite are being offered for sale at a price of \$100 each.

Bill Chappell's "Queen of the Woods" will run at Cranbrook tomorrow.

On Friday last, Sam Willingsky was found guilty of murdering George Lakatos at Frank on February 18th and was sentenced to hang at Macleod jail on July 26th.

May 30—A curious quadruped, believed to be the only survivor of the once thought extinct and prehistoric animals known as gazaks, has been seen in the hills around Burmis of late. It is described as being a cross between a goat and a sheep, with a large bushy tail, legs on one side four inches shorter than those opposite, enabling it to travel fast in only one direction around a mountain side. A party is being organized to try and capture the freak and they feel that a capture would be easy if they could ever get him on the level. The local editor used to dream things himself, but he's going on the wagon now.

A corps of the Alberta Rangers is being formed in Blairmore by Mr. J. W. Gresham, who has been offered a captaincy.

Algernon Tweedy and Tom Shepherd, of Cowley, were visitors here on Saturday.

SCOTS IN LUCK USE CAPS AS SPONGES AFTER COLLISION

Streams of whiskey at least three inches deep poured down the gutters in Stockwell Street, Glasgow, recently, when, much to the glee of a crowd, a train car collided with a lorry laden with barrels of the spirit.

Five barrels were thrown into the roadway by the impact and broken. Immediately there was a wild rush of men and women eager to take advantage of such a rare opportunity. Bottles and cans were filled with whiskey, and some of the crowd went down on their hands and knees and licked up the spirit. Other men soaked it up with their caps and handkerchiefs, which they then sucked with much apparent enjoyment.

—The London Daily Sketch.

Mrs. F. M. Pinkney and Mr. and Mrs. H. Pinkney left on Friday night last for a month's holiday at the coast.

"THE FIRE BRIGADE"

The big attraction at the Orpheum Theatre on Friday and Saturday nights will be Charles Ray and May McAvoy in "The Fire Brigade," a picture of highlights.

This production does for the firemen what "The Big Parade" did for the American soldier, and brings before the public in an arresting manner the necessity of fire prevention without at any time becoming a preachment on the subject.

A gripping, dramatic story has been woven against a background of fire and fire-fighters that holds the spectator from beginning to end. The story tells of "Terry O'Neill," descended from a long line of fire-fighters, his initial enthusiasm, his love for the daughter of a wealthy man whom he later discovers to be the head of the whole city government, his disgust at this man's crooked methods, and the consequent quarrel with his sweetheart over her father, his heroism in a spectacular orphanage fire caused through the neglect of the politician, and the final reconciliation with the daughter and his later public recognition for his heroism.

The studio had the expert co-operation of the International Order of Fire Engineers in the making of the picture, and the fire scenes were all staged by the Los Angeles fire department under the supervision of Fire Chief Ralph Scott of the city.

"The Fire Brigade" is the first directorial effort of William Nigh for Metro-Goldwyn Mayer and places him in a similar position to that of King Vidor after he had triumphed with "The Big Parade."

Charles Ray is seen in the role of "Terry O'Neill." Noted for his humaneness, the actor excelled himself in the delineation of this character. It is one that allows for considerable comedy, yet depends principally upon drama, for its appeal.

May McAvoy is seen opposite Ray as "Helen Corwin," daughter of the politician, and not only has photographed to the finest advantage, but brings a wealth of charm and understanding to her part.

Tom O'Brien, remembered for his role as "Bull" in "The Big Parade," plays Ray's big brother in this picture, and though he dies all too soon in the story, leaves a lasting impression.

Holmes Herbert, as father of the heroine, manages to make himself thoroughly despicable, with his love for his daughter the one redeeming feature.

An elaborate costume ball, photographed in technicolor, brings a surprising note of beauty to the film.

NEWSPAPER HELD BEST ADVERTISING MEDIUM

ATLANTIC CITY, N.J.—However important other channels of advertising, the newspaper affords the avenue that returns the largest business to the merchant.

From an experience of many years, D. E. Kelly, president of the Fair, Chicago department store, imparted this assurance to the 10,000 delegates and guests of the convention of the national electric light association.

"Merchants generally recognize that billboard and street car advertising are of unquestioned value in marketing products requiring nationwide distribution," said Mr. Kelly. "Magazines and billboards have made the names of nationally known specialties household words for such goods. However, without appearing to hold a brief for the newspapers, we are of the definite opinion that, dollar for dollar, our return from newspaper advertising is much greater than that from any other form of advertising."

"We would advise manufacturers to link up their advertising with the advertising of local dealers. They will thus inform the public where their product may be had and should produce best results."

Mr. and Mrs. Robert Gray and Mr. and Mrs. F. M. Thompson were among the visitors to Lee Lake camp on Sunday afternoon last.

100 PER CENT RESULTS FOR COLEMAN MUSIC TEACHER

An important element in successful music study is that teacher and pupil understand each other. There are frequently certain little matters of misunderstanding, on the part of the pupil, which hinder progress, which can easily be avoided by a little thought. Knowing as we do, that each pupil is of a different temperament, that all have their individualities, it stands to reason that if a teacher has a dozen pupils being tutored on the same instrument and who are being taught the same piece of music, each lesson as the teacher should teach it will be different, although the results in every case should ensure success.

And here we have a fine example of teaching, as anyone knows that to obtain 100% passing of pupils is no easy matter. Mr. W. J. Harris, of Coleman, who is the teacher having obtained such results, received his tuition in England, has been in this country about three years, and this is the first examination he has conducted since his arrival. He is well known throughout the Pass as a violin soloist, and his beautiful tone and fine execution has won for him great favor. In addition to an exceptional passing mark, one of his pupils received first class honors and five more were credited with honors. The examiner was Mr. E. J. Farmer, of Toronto, who was the representative sent out by the Toronto Conservatory of Music. The successful candidates are as follows:

Coleman—M. Malanuch, pass with first class honors; Mrs. Vincent (nee Agnes Campbell), pass with honors; Evan Gushel, pass with honors; Yarrowle Bleck, pass with honors; Elidio Salvador, pass with honors; Brunsle Gentile, pass; James McDicken, pass; Stephen Janostak, pass; Walter Bobbitt, pass; Phyllis Shone, pass; John Petrovski, pass, and Olga

Belovich, pass.
Hillcrest—Cyril Richards, pass, and Samuel Richards, pass.
Bellevue—F. G. Harris, pass with honors, and Elsie Berovee, pass.

Louis Pozzi had a very narrow escape from being killed on Wednesday, when he lost control of a truck upon which he was climbing the hill to Blossomwood Ranch, near Frank, with a load of lumber. Two lads, riding on the lumber, jumped to safety. Louis stayed in the cab of the truck and was extricated after the heavily loaded vehicle had turned over several times, with but a slight cut on one of his arms.

Mrs. Jessie Harrison and party have arrived at Truro, Nova Scotia, after a continuous motor trip through the States from Yak, B.C. On the trip the party covered five thousand miles.

We understand that the big Folio monoplane, set loose from Blairmore on July the first, started out without a compass or navigator. Losing its way for some days, it eventually sighted one of the forest corps' landing signs near Nash's on the North Fork and landed there. The big machine was built of about one hundred copies of The Blairmore Enterprise, so Mr. Nash has very kindly paid us for same in the sum of two years' subscription. "Pays to advertise!"

RED ROSE TEA "is good tea"

YOU must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in Aluminum.

The Message Of The Bells

Canada, which in its sixty years as a confederated Dominion, has established more than one record of worthy achievement, placed another to its credit on the anniversary of its Diamond Jubilee when, through the greatest linking up of radio broadcasting stations ever attempted, the ceremonies at the national capital were thrown into the air and carried to the uttermost parts of the Dominion and listened to by hundreds of thousands of people from Prince Edward Island to British Columbia.

The achievement was not only spectacular but well worth-while. Direct from the Houses of Parliament, over a network of telegraph and telephone wires, to a total of twenty-three broadcasting stations, the messages of His Majesty the King and the nation's leaders were carried, interspersed with the singing of patriotic songs by great choirs, and the thrilling tones of the bells of the wonderful edifice installed in the Victory Tower at Ottawa.

For the moment the farthest east and the farthest west, and all the intervening territory, was in instant and common communion. Distance was annihilated, geographical barriers rendered of no account. The heart throbs of the nation, sounded in the national capital, were heard and felt throughout the length and breadth of the land. It was a union in spirit and sentiment, as well as in fact, undreamed of by the Fathers of Confederation.

Anasazi, an engineering feat. It was still more wonderful, as a demonstration of the national unity of the Canadian people. It was an unanswerable reply to all those doubting souls who have declared that, with its complexity of racial, religious, geographical and economic problems, Canada could never become a united people. Canadians everywhere felt a thrill of national pride as they listened to the message of the bells from their national capital.

The message of the bells was, however, not for Canada alone, but for the whole world. The inscription on the largest bell reads: "This carillon was installed by authority of Parliament to commemorate the Peace of 1918, and to keep in remembrance the service and sacrifice of Canada in the Great War," while around the rim of the bell are the words: "Glory to God in the Highest and on Earth Peace, Goodwill toward men."

In the Great War, Canada fought not for herself alone, but for all the world, for the maintenance of civilization and liberty everywhere, for justice and the right. In the great Victory Tower from which the bells ring out their message is located the Peace Memorial Chamber wherein on an altar rests the Book of Remembrance containing the names of the more than sixty thousand Canadian soldiers who made the supreme sacrifice for Canada and the world. It is a great monument, not to war, but to peace.

In his beautiful description of the Tower, the Memorial Chamber, and the Carillon, Premier Mackenzie King emphasized the idea underlying it all, and in his concluding words, after referring to the Angel's song to the shepherds: "Glory to God in the Highest and on Earth Peace, Goodwill toward men," he said: "Back to the skies it returns at noon today, not the echo of a mystical strain heard on a Judean shore, but the voice of a nation in thanksgiving and prayer which will sound over land and sea to the uttermost parts of the earth."

That is the Message of the Bells—a message from this young, virile Dominion to all lands and all peoples, a message of Peace and Goodwill.

That is the Message of the Bells—a message rung out from their national capital to the people of Canada, a message calling them to continued patriotic service to a Canada at peace at home and with the world, a message urging the cultivation of a spirit of goodwill to all, a message from the bells in which let it be hoped, all old suspicions, rancors, and feelings of ill-will will be silenced and all racial, religious and political frictions dissolved.

That is the Message of the Bells—a message to all who make Canada their home, a message of peace and goodwill, to render deep devotion, patriotic service and, when needed, self-sacrifice to the Dominion, to show goodwill to his neighbor, to co-operate together for the common good and the future peace, progress and prosperity of Canada.

Town Runs On Radio Time

All clocks in Nymboldia, Australia, are now set according to radio time. The local schoolmaster sets it through the school receiving set as it is given every hour by a general broadcasting company. He then rings the school bell, the classes are started on radio time, and the townspeople regulate their clocks according to the bell.

Aviation Field For Lethbridge

Lethbridge is to have an aviation field available to commercial flying and aerial mail. The site is in North Lethbridge south of the standpipes and is sufficiently broad to allow of ten aeroplanes lying abreast. The location of air harbors follows the Federal Government's encouragement of aerial navigation for commercial purposes.

Scarcity Of Beef Cattle

Reported That There will Be a Cattle Shortage in Saskatchewan, This Year

A scarcity of beef cattle is likely in Saskatchewan this year, the experts say. The United Farmers of Ontario are reported in the market for a thousand carloads, as compared with 200 last year, and the opinion of cattle men is that Saskatchewan may not be able to furnish even the small consignment sent out last year. Up to the end of April Canada exported 4,000 head of cattle to Great Britain, compared with 29,000 last year, while hog shipments to the United States for the same four months are 106,000 compared with 2,584 for the same period last year.

Agony of Lumbago

Quickly Soothed Away By "Nervine"

For the sharp, piercing pain of lumbago, and the torturing aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nervine." This wonderful liniment penetrates through the tissues very quickly, strikes at the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nervine, the King of Pain destroyers. Get Nervine today, 25c at all dealers.

Historic Relic Found

Ottawa Woman Has Bagpipes Played At Colloiden Moor

The historic bagpipes that piped for the last cause at Colloiden Moor when the defeated forces of "Bonnie Prince Charlie" were rallied by his strains have been located in Ottawa. Their present owner, Miss Francis Nolan, has already refused an offer of \$4,000 for them from a Scottish museum. The pipes were handed down to her by her late husband, the late John Brown, descendant of the John Brown who played them at Colloiden Moor, piped a tune when King Edward VII. then Prince of Wales, laid the cornerstone of the old Parliament Buildings at Ottawa.

THIN, WATERY BLOOD ALWAYS DANGEROUS

If Not Corrected Serious Results Sure to Follow

In no trouble is delay or neglect more dangerous than in anemic blood. Thin, watery blood is a very common in young girls and in persons who are overworked or confined with ill-doing. If makes its appearance in a stealthy manner that it is often well developed before the trouble is recognized.

But taken in time the tonic treatment through the use of Dr. Williams' Pink Pills is so effective that blood that good health and strength is speedily regained. The correction of anemic conditions by Dr. Williams' Pink Pills is as certain as anything can be. Miss Teresa Healy, Dunroven, Que., is one of the many anemic sufferers who has found new health through the use of this medicine. She says: "I cannot express too warmly my thanks for what Dr. Williams' Pink Pills have done for me. I was suffering from a run-down condition. I was very nervous, had little desire for food, and could not sleep at night. After taking this medicine I began to feel better. Dr. Williams' Pink Pills, and before long I was feeling very much better. My health gradually improving, and under their continued use was completely restored. For my own sake, I earnestly advise all weak girls to take these pills, telling sure that they will do for others what they did for me."

Send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., and they will mail you free a useful little book on "Building Up the Blood." The pills can be obtained through any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Conduct Geological Survey By Airplane

Research Work In Saskatchewan Will Occupy Three Years

Aeroplanes and seaplanes are being employed in a three-year geological survey of Saskatchewan. It is known that the province, particularly to the north, contains vast undeveloped mineral wealth, and research will be concentrated upon that region. The machines draw supplies of gasoline and oil from convenient centres, and the airmen, as a preliminary, make sketches of little known or unknown territory. These maps are handed over to geologists, working in consultation with the airmen, and in turn the geologists are followed by expert prospectors. When the work is completed, the authorities will, for the first time, be in possession of authentic maps of Saskatchewan's northernmost reaches.

In a Missouri town of 1,300 there are 25 couples who have celebrated their golden wedding anniversaries, while four couples have been married 60 years or more.

Canada Colonization Association

Col. J. S. Dennis Tells of Work Being Carried On

Col. J. S. Dennis, Commissioner of the Department of Colonization and Development, Canadian Pacific Railway, gave a very interesting address at Winnipeg recently. He outlined the work that is being carried on by this organization. He produced figures showing that a vast amount of work has been accomplished since the inception of the undertaking in 1914. The total value of the land and equipment colonized to date amounts to approximately \$20,000,000, of that amount \$16,000,000 represents the land, \$3,000,000 is represented by chattels, and \$1,000,000 additional building provided by the landowners.

"We have spent a considerable time to endeavor to find out what was the actual value of an agricultural family to Canada," said Col. Dennis, "and we are able to show from government returns that the value of a family, consisting of five, to the mercantile and industrial life of Canada amounted to \$1,582 per annum, that is covering a budget of what they need in the way of clothing, shoes, etc. We also went to some trouble to find out what a family of the same size is worth to a transportation company, and we ascertained that a family of five adjacent to a railway, whose budget was the amount I have mentioned amounted to \$716 per annum in transportation."

"It is a matter of simple figuring and does not need any mathematical to make it perfectly clear to the business interests of Canada what the results will ultimately be if we increase the movement of our agricultural families from the small numbers we are now able to get to a wide margin. The smaller places particularly in the West have a big interest in this, because every 10 families mean to the merchants in that town \$15,000 per annum for supplies which the merchant furnishes. The question of what it means to the transportation companies appears very strongly to the owners of both railways and money, and I do not think it is unfair to say that the people of Canada as a whole do not appreciate what this means to them in immediate returns. It is true we obtain the benefit derived from transportation of these people, but this is a small item compared to the benefit to Canada generally."

"We have compiled figures, which show that the C.P.R. expended \$70,000,000 in colonization and development of Western Canada, and that gain is in excess of the total cost which has been expended by the Dominion Government and further considerable expenditures are being made in a direct effort to speed up the movement of desirable colonists to Canada for developing the unproductive land, of which a very considerable proportion will bring no direct returns to the Canadian Pacific Railway."

The cheapness of Mother Gray's Worm Expeller puts it within reach of all, and it can be got at any druggist.

India Provides Remedy

Oils Extracted From Tree Seeds Used in Treatment of Leprosy

It is a notable fact, says an article in the Times of India, that India, which is believed to contain one-fourth of the leper population of the world, also provides the material from which has been derived the most potent remedy for that fearful disease.

It is simply another proof of the wisdom of nature in placing a remedy contiguous to every disease. It is from the seeds of trees growing in Assam and in South India that the oils are extracted, from infusing solutions of which Sir Leonard Rogers proved that the disease could be most successfully attacked.

Thirty-five Years Making Toy

After 35 years' effort, Charles W. Attridge, of Battersea, England, has just completed a doll's house, in a match box. The house contains four rooms, and is perfect in every detail even to shelves, pictures on the walls and coverings for the tables. A tiny doll is mistress of the diminutive home.

Bacteria taken from a Roman vault that had been closed for 1,800 years are said to be found to be perfectly capable of germination.

Large amounts of piling in the harbors of both the Atlantic and Pacific coasts are ruined each year by wood borers.

W. N. U. 1489

WHEN USING WILSON'S FLY PADS
READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly vetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

The right way to use Wilson's Fly Pads

London's Tribute to Canada

Daily Mail Says Dominion Is "Nation With a Noble Soul"

Under the caption of "A Nation With a Noble Soul," The Daily Mail's chief editorial referring recently to the Confederation Jubilee celebrations in Canada said: "The only misfortune from the British standpoint is that owing to the combined influence of the drole and low birth rate in Great Britain the British proportion of immigrants seems destined to decline."

"It was never true that the happiest states are those which have no history and in the last 20 years the Dominion has made its mark on history, and has influenced world events. Her statements originated the idea of Imperial preference which will be certain of realization hereafter when the British people discover the peril of que-ried free trade."

"The Canadian monument at Vimy Ridge will remind men for centuries of what Canada did in the Great War and how, in the hour of battle and sudden death, she was not unfaithful to the call of honor and love."

"The Dominion today has given proof that she sets the ideal above the material and is a nation with a noble soul."

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid condition of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Simplified Spelling

As a result of 30 years' effort by the simplified spelling board of America 12 of the 30,000 respelled words contained in the handbook of this society have been entered in some English dictionaries. They are: tho, altho, thru, thruout, thorofare, thorogy, catalog, decalog, pedagog and protog.

Minard's Liniment for warts and Pimples.

The galago, or flying lemur, is a native of Indian archipelago, is said to be the champion jumper of animals, clearing about 500 feet on an inclined plane.

Canada's Greatest National Romance

Old Pioneering Miner Discovered Placer Gold in Klondyke

The discovery of placer gold in the closing years of the last century, on the Klondyke River, a tributary of the mighty Yukon, was Canada's greatest national romance.

The credit for the Yukon's discovery is now generally given to Robert Henderson, an old pioneering miner, although Comstock, who was luckier than Henderson inasmuch as he made a fortune, whereas Henderson did not, is sometimes mistakenly mentioned as the discoverer.

The news of the discovery of June, 1896, filtered out to the world, and in 1897 the rush started. Some tried to reach the new camp overland from Saskatchewan and Alberta, and, decimated in numbers and shattered in health, reached the northland after a year of hardships. Others proceeded from Seattle and Vancouver. Fifteen hundred miles up the Pacific to Dyea and Skagway, crossed the Chilkoot Ranges on foot and floated five hundred miles down the Yukon on improvised boats.

Canada has reason to be proud of her Yukon administration. The Royal Northwest Mounted Police, as the force was then called, was early on the scene and policed the country in a manner that gave safety and stability to the new camps.

One of Richest Nations

Since 1913 Canadians have increased their holdings of their own Government and municipal bonds by over \$2,885,000,000 or sevenfold. Canada's per capita wealth is now exceeded only by that of the United States and Great Britain.

Minard's Liniment for Insect Bites.

Trees That Attract Lightning Pine, oak and spruce are the trees most subject to lightning stroke, while beech is nearly immune, according to a European survey. In the American West, 72 per cent. of the trees hit are western yellow pine and Douglas fir.

Ruth—"Don't 'e let fashty see 'e kassin' me."

Reuben—"I hain't kassin' 'e."

Ruth—"Oh well, I thought I'd tell 'e in case."

Children Cry for

Plecher's CASTORIA

MOTHER'S Plecher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Plecher* Proven directions on each package. Physicians everywhere recommend it.

Genuine BAYER ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds	Headache	Neuritis	Lumbago
Pain	Neuralgia	Toothache	Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monmouth, N. J., U. S. A. While it is well known that Aspirin is a Bayer product, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their genuine trade mark, the "Bayer Cross".

COMMISSION ON CUSTOMS HAS ENDED LABORS

Charlottetown, P.E.I. — The Royal commission on customs has concluded its labors for the time being.

Sittings here marked the close of a tour which, opening last November, has covered all the provinces of Canada. Customs administrations, commercial smuggling, petty smuggling, operations of breweries and distilleries, and last, but not least, smuggling of liquor into Canada and the United States, have been gone into during months of sitting. Now the commission with a mass of evidence and exhibits takes adjournment until the last of August or early in September.

Sittings in Ottawa and a trip to Washington to consult with the United States authorities on the operations of the anti-smuggling treaty will complete the activities of the commission, prior to completion of a report for the Government and Parliament. This will be available for the next session of Parliament.

The commissioners left today for their respective homes. Chief Commissioner J. T. Brown is motoring from here through Cape Breton and then to his home in Regina.

Sask. Rifle Association

Annual Prize Meeting to Be Held at Regina

Regina. — The annual prize meeting of the Saskatchewan Provincial Rifle Association is to be held at the rifle range in Regina on July 19, 20, 21, and a comprehensive list of events has been prepared for the meeting, for which a large number of entries is anticipated. From all parts of the province of Saskatchewan riflemen will come to Regina to attend the "shoot."

From the participants in the Regina meeting the provincial team, of about 16 members, will be selected by the council and called upon in the order of their scores in the grand aggregate to attend the prize meeting at Ottawa in August. At the Ottawa meeting, authorities will be selected to represent Canada at Bisley, England, next year.

Special provision has been made in the program for the tyro in "shooting matches. The "tyro" is defined as any member of the association who has not at any previous national, dominion, colonial, county or provincial rifle association meeting, won a prize other than a tyro prize except in team matches or extra series.

For the competition period a camp is to be pitched at the rifle range and a canteen is also to be operated and meals are to be provided at the range. Prizes to the value of \$1,500 are included in the long list just published, as well as medals and cups.

Will Survey Proposed Construction Plans

Chief Engineer of C.N.R. Also Inspecting Hudson's Bay Line Work
Winnipeg. — C. G. Zawaski, of Montreal, chief engineer of construction for the Canadian National Railway, is on his way to the northern part of the province where he will inspect work on the Hudson's Bay Railway and survey proposed construction plans. Mr. Zawaski before his return to Winnipeg will inspect all new branch lines either proposed or now under construction of the system in Northern Saskatchewan and in Peace River area of Alberta.

Sale Will Not Be Rushed
Winnipeg. — No action will be taken on the Beer referendum results until the official returns have been received from all constituencies of the province, said Premier J. Bracken on his arrival here from his annual visit to the Brandon fair. Whether the result would demand a special session or not, the Premier was not prepared to say.

Freight Rates Reduced
Moncton, N.B. — Freight rate reductions between the Maritime provinces and central Canada as provided for by Parliament at its last session when the report of the Duncan Royal commission was largely implemented by the Government are now in effect, the tariffs having been issued July 1.

To Entertain British Editors
Ottawa. — Officials of the Dominion Government here will entertain a group of 100 British newspaper publishers and editors representing various provincial newspapers, in August.

Expedition Has Gone To Hudson Strait

Canada Will Set Up Aerial Bases in Northern Regions

Ottawa. — The government's aerial expedition has gone to Hudson Strait. It is proposed to establish three aerial bases, one in the vicinity of Fort Dorwell, at the east end of Hudson Strait, one in the vicinity of Nottingham Island, at the west end of the strait, and one in the vicinity of Big Island, on the north side of the strait, about midway between the two. The distance between Pt. Burwell and Nottingham Island is 500 miles. Hon. C. A. Dunning in receiving the airman said: "It is the policy of the government to provide for the development of the best port on the bay in order that all the resources of the territory adjacent to and surrounding the bay may be exploited and developed. Secondly, it is the intention of the government to provide, so far as the facts which you will determine will permit for ocean navigation from a port on the bay to any other part of the world."

Farm Area On James Bay

Has Same Prospects As Peace River District Says Professor

London, Ont. — According to Prof. J. W. Russell, head of the Department of Geology of the University of Western Ontario, "600 miles due north of London lie, in the district known as the James Bay, extending from the shores of the James Bay Island about 125 miles and covering an area twice that of Western Ontario, the greatest settlement, agricultural and population possibility in Northern Ontario. It is one of the two great population possibilities in Canada, the other being the Peace River district." Prof. Russell said that the James Bay had all the characteristics of Western Ontario in pre-settlement days.

Hon. Robb Takes Vacation

Says Finances of Country Are in Good Condition

Quebec. — "I am not going to Europe to negotiate a treaty with Germany," and I will only visit France and England," declared Hon. J. A. Robb, on board the "Empress of Australia," which sailed for Cherbourg and Southampton. Mr. Robb declared he needed a rest after strenuous work at Ottawa.

"I am going," he said, "leaving the finances of the country in fine position. We have the money sufficient to meet our requirements and I will return in August."

Discovers Process For Making Gold

French Scientist Claims He Has Solved Problem

Paris, France. — Professor Jollivet, French scientist, claims to have solved the problem of the ages the transmutation of silver and other base metal into gold. He says he has succeeded in getting 20 milligrams of gold from a mixture of other metals, including six grammes of silver. He believes that the process will be the key to the industrial process will have great industrial value.

Measuring Heat Of Stars

Delicate Instrument Is Being Used to Conduct Experiments

Washington, D.C. — "Flies" wings form part of a delicate instrument which will be used by Dr. Charles G. Abbott of the Smithsonian Institution for measuring the heat of stars.

Dr. Abbott has gone to Mount Wilson, California, to conduct his experiments.

The "radio meter," is a sensitive instrument that could measure the heat of a match 5,000 miles away if no atmosphere intervened, the scientist said.

Farmers Lose Heavily
Edmonton, Alberta. — More than nine thousand acres of hay land in the area of Big Lake, lying between Edmonton and Lac Ste. Anne, have been inundated and the hay crops destroyed at an estimated loss of \$50,000 to the farmers, owing to the flooding waters of the Sturgeon river, according to A. M. Kirkpatrick, government engineer, who has returned to Edmonton after making a survey of the Big Lake, Lac Ste. Anne and Wabamun districts.

Returning In Airplane
Paris, France. — Charles A. Levine, who accompanied Clarence Chamberlain in his flight to Germany, intends to fly back to New York as soon as he can find a French pilot to go with him. He made this declaration at a luncheon given by the American and British correspondents here.

Coast Cities Sponsor Flight

Two B.C. Aviators Anxious To Try London, to London Trip

Vancouver, B.C. — F. Turner is the second British Columbia aviator who has applied to make the proposed London, Ont. to London, Eng. flight. It was announced, S. A. Mowat, New Westminster, formerly of Regina, was the first.

Turner, who served two years overseas in the flying corps, has wired the promoters of the flight that he wishes to make the trip alone. He has met Major Edna Taylor to discuss the possibility of his trip being backed by the city. New Westminster has already sponsored the application of Pilot Mowat.

Mayor D. R. McLaren, president of the air force club of British Columbia, has announced the club would be behind any sound project for a flight from Canada to England.

Will Use Canadian Readers

New Brunswick Has Prescribed Series For Use In Schools

Fredericton, N.B. — The New Brunswick Board of Education has prescribed the series of Canadian readers for use in the schools of the province. Nova Scotia is to adopt the same series shortly and Prince Edward Island will do the same, it is expected. British Columbia, Alberta, Saskatchewan and Manitoba already use the series. With the Maritimes adopting it seven out of the nine provinces will have the one series of reading books in the schools.

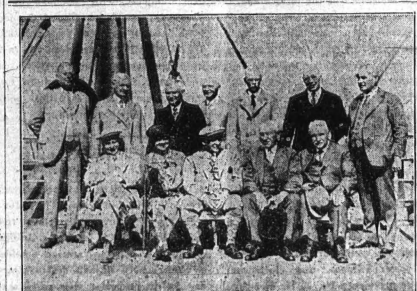

TO CLOSE MANY SMALL PORTS OF CUSTOMS ENTRY

Ottawa. — The closing of a lot of small ports of customs entry throughout the country will have to be tackled soon by Hon. W. D. Eider, Minister of National Revenue, and the action which is projected seems likely to cause some trouble.

The special committee of the House which last year began the inquiry into the customs administration recommended among several things, decrease in the number of customs posts and some of the commercial bodies previously had suggested the same thing. Money is lost from the operation. There is one case, where the collections last year were only \$30. Nevertheless, a community that has a customs house in its midst regards it as a sign of status and will not readily relinquish any such service. It is believed any reforms in this direction will be effected with caution as the smaller the port that is closed, the longer it is likely to be the consequential protest.

Meanwhile in the re-organized preventive service, this is the busiest season. Smuggling and bootlegging are done mainly in the summer. The enlarged service is at work and new motor cars and motor boats are being delivered, while light but fast cruisers are under construction. The number of seizures has greatly increased this year and has resulted in a remarkable growth in revenue. Sales and excise taxes are consequently factors, while some border points heretofore making small contributions to revenue are now taking in very substantial amounts. Mr. Cogan, chief of the preventive service, will have in about a week to attend to the final re-organization of the staff in the western provinces.

Cattle For Canada
Montreal. — The Canadian Trade Commissioner at Bristol reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, whose chief purpose is the direct importation of Canadian auro and fat cattle. This new group represents sixteen meat traders' associations in the region indicated.

Senior Golfers to England

Canadian Senior Golfers photographed just before sailing recently on the Canadian Pacific steamship, Montserrat, for Great Britain, where they will meet international veteran golfers in a series of matches. The players are from left to right in the back row, F. J. MacKay of Sarnia; Ralph Connahee and F. A. Parker of Toronto; F. J. Sheahan, St. Catharines; Sir George Garneau of Quebec City; D. R. Buchanan, Galt; and J. D. Fraser of Toronto. Those sitting are C. Y. Stanier of Winnipeg; Mrs. F. A. Parker; George S. Lyon, 69-year-old veteran, who will captain the team, George G. Heintzman and Dr. W. M. McQuire, all of Toronto.

U. S. ADJUSTS DIFFICULTIES OF BORDER RULING

Washington. — The recent negotiations between the Canadian legation and the United States Department of Immigration have resulted in clearing up some points in the border crossing regulations. The regulations were the subject of international discussion when the Labor Department imposed new regulations affecting Canadians living in the Dominion and working on the American side of the border.

One important point is the status of Canadians who comply with the head tax and visa regulations, thereby qualifying technically as immigrants to the United States. Immigration experts have ruled that these commuters may continue indefinitely to enjoy the border crossing privilege without further payment of fees or renewal of passports, except that periodic inspection is proposed of commuters' permit cards, probably every six months.

Even if commuters change their place of employment in the United States, they will not be subject to challenge. Also, they may discontinue commuting for a reasonable period and re-commence under their old status provided they do not contravene any of the fixed clauses of the United States Immigration Act.

Another important phase of the new regulations has been clarified with the assurance of the Labor Department that Canadians may qualify as commuters in the future. Some phrases of the order raised a doubt as to whether Canadians not already commuting when the order was issued would be able to enter the United States daily to work on that side of the border.

Sending Dogs To Arctic

Eight Specially Trained Huskies On Way to Coronation Gulf

Vancouver, B.C. — Having completed nearly 1,000 miles of a 3,000 mile journey, a team of eight husky dogs arrived here from a point near Armstrong in Northern Ontario. They are bound for Coronation Gulf in the Arctic. They embarked on the steamship Haychno which sailed July 7.

The dogs are assigned to the inspection of the Hudson's Bay Company at Coronation Gulf and are a specially trained team, developed for stamina and long distance pulls.

Will Try For Altitude Record

Chamberlain Expects to Keep Plane Aloft Over Sixty Hours

New York. — The Bellanca monoplane, Columbia, in which Clarence Chamberlain and Charles A. Levine flew to Germany, will be used by the same aviators as soon as it is brought back from Europe in an attempt to break the world's endurance record. Joseph May, secretary to Levine, said increased fuel is expected to keep the plane aloft for more than 60 hours.

Cattle For Canada
Montreal. — The Canadian Trade Commissioner at Bristol reports the formation of the South Wales and Monmouthshire Cattle Importers' Association, Limited, whose chief purpose is the direct importation of Canadian auro and fat cattle. This new group represents sixteen meat traders' associations in the region indicated.

Settling British Boys On Canadian Land

Governments Agree To Assist Them in Buying Farms

Ottawa. — What is expected to be the most constructive of modern land settlement schemes is embodied in an agreement for the settlement of British boys on the land in Canada, just concluded between the British and Canadian Governments under the Empire Settlement Act of 1922. Under the scheme it is proposed to jointly expend a total sum of five million dollars over a period of ten years.

The scheme will apply to boys who have received assisted passages, have passed through the provincial training centres in Canada, and who were between 14 and 20 years of age on arriving in the Dominion.

On reaching 21 years of age, the boys—provided that they have acquired the necessary training and experience by working for wages on a farm in Canada, and have saved approximately \$500 — will be eligible for assistance up to an amount not exceeding \$2,500 for the purchase of a farm and for stock and equipment. No advances will be made to young men over 25 years of age.

Settlement under the scheme will commence on April 1, 1928.

Prince Making Few Public Engagements

Premier Baldwin Will Carry Chief Burden During Canadian Visit

Ottawa. — There will be few actual public engagements during the visit of the Prince of Wales, from what can be learned at the present time.

Premier Stanley Baldwin will probably carry the chief burden of public appearances. During the Prince's three-day stay in Ottawa only Wednesday, August 3rd, will be taken up with official duties. His Royal Highness will at noon on that day unveil the altar of sacrifice in the memorial chamber of the Victory Tower.

Later he will unveil the statue of Sir Wilfrid Laurier recently erected on Parliament Hill and then visit the International Country Congress while it is in session.

Higher Price Levels

Index Number of Commodities Slightly Higher in June

Ottawa. — The Dominion bureau of statistics index number weighted according to the commercial importance of the 236 commodities which are included in its computation rose 1.6 points in June, being 153.5 as compared with 151.9 in May.

Vegetable products rose from 174.0 to 181.1, higher levels for grains, food, and other commodities. There was, however, some falling in prices of coffee, tea, raw sugar, hay and straw. Animals and their products fell from 135.7 to 134.0 declines in livestock, pork products, mutton and butter prices, but offsetting advances in hides, leather, boots and shoes, and beef.

WILL DROP PLAN FOR REFORM OF HOUSE OF LORDS

London. — Announcement in the House of Commons by Premier Baldwin that the Government's scheme for the reform of the House of Lords, which has created something of a political furor, was merely "a basis for discussion and criticism" is taken by political observers to indicate that the reform of the Lords may be dropped completely for the time being.

During the debate, which aroused parliamentary interest only as a discussion of the fate of Great Britain's upper chamber can arouse it, there was no affirmation of Lord Birkhead's recent assertion in the House of Lords that the reform would be rushed through in the life of the present Parliament.

Ramsay MacDonald, leader of the Labor Opposition, moved a vote of censure on the Government on the question of the reform of the Lords, basing his motion on the charge that the Government had received no mandate from the people for its proposed reforms, "as motion was defeated, 325 to 167."

The Prime Minister had to listen to criticism from Laborites, Liberals and Conservatives. John Buchan, newly-elected to the House, voiced his misgivings in a speech to the House, declaring that he was "a dissenting Conservative."

Mr. Lloyd George, the Liberal leader, declared that in the past the Liberal Government, in considering reform of the House of Lords, had decided to leave "the ramshackle thing where it was."

JAPAN SUPPORTS U. S. ON CRUISER TONNAGE DEBATE

Geneva, Switzerland. — Japan indicated that she would throw her support to the United States in the Anglo-American discussion of cruiser tonnage. Japan insisted that world interests would best be served by adhering to low tonnage figures for cruisers and supported the original bid of the United States—2,500 tons.

The British plenipotentiaries, who have been trying to get the United States and Japan to realize the need of the empire for fast, strong cruisers to protect British trade routes and British interests in the far corners of the earth, appeared to be surprised at the sudden announcement by Baron Saito, the Japanese plenipotentiary, that the position of her one-time ally, W. C. Bridgeman, hearing the announcement, is understood to have said: "These figures (2,500) are impossible as a basis of discussion."

This development in a dramatic fashion gave a new angle to the tripartite naval conference. It means that Great Britain, which has all along maintained her right to protect her dominions and her trade interests, is opposed in her desire for a strong cruiser fleet by both the United States and Japan. Japan's decision, at the conference, called by the United States, may, for Great Britain may find that it is impossible for her to approve of a treaty which might endanger her world-wide lanes of communication, the arteries of her life.

Safeguard Public Health

West Has Made Great Strides in Care of the Sick

Edmonton. — Making his first visit since 1923, Hon. Dr. J. H. King, federal minister of Public Health and of Soldiers' Civil Re-establishment, was in Edmonton recently.

"Public health has made wonderful strides in Canada," said Dr. King, and perhaps nowhere more so than in Western Canada.

Dr. King, during his previous conditions in the outlying districts, and rapid growth in the cities, the various public health bodies have cooperated to build up a splendid system which takes care of the sick in the cities at the same time as it reaches far into the remote districts, to bring help and succor to the man on the fringe of civilization."

Build Big Battle Plane

Huge Airplane Under Construction in United States

New York. — The New York American says a huge battle plane designed to carry five machine guns and gunners is being constructed for the War Department. The plane was designed by the Curtiss-Wright Co.

The plane with a wing spread of 73 feet, is larger than the moonplane America, which Commander Byrd flew across the Atlantic.

In addition to its machine guns the plane will have provision for carrying 2,400 pounds of high explosives with which to bombard land or sea forces. It is said.

Surgeons May Establish College

Regina. — The formation of a Royal College of Physicians and Surgeons for Canada is being considered by the medical association, according to a statement made by Dr. S. E. Moore, who has just returned from a medical convention in Toronto. It would be affiliated with the same body in Great Britain.

To Prevent Liquor Smuggling

Moncton, N.B. — An understanding has been reached by which the Canadian National Railway, the Customs Preventive Service of Canada and the United States Customs Service will co-operate to prevent the illegal movement of liquor from points in the Maritime provinces to other centres in Canada and the United States.

Peace River Trail

Edmonton. — Dr. J. A. Douglas, president of the Canadian Automobile Association, has returned to Edmonton after a trip through the Grande Prairie and Peace River country to take motion pictures to illustrate his lecture on "The Peace River Trail," which he is scheduled to give at numerous points in Eastern Canada.

Canadian Poet Is Dead

Victoria. — Charles Mait, the Dominion's oldest poet, and exponent of a sturdy Canadianism, died at the Jubilee Hospital here in his 87th year.

BELLEVUE, ALBERTA

About fifty Oddfellows and Rebekahs from Coleman, Bellevue and Blairmore journeyed to Pincher Creek on Tuesday evening to attend the installation of officers of Alexandra Rebekah Lodge No. 8. Sister Jackson, B.D.P., acted as installing officer. Following the installation ceremony, refreshments were served. Last night there was a record attendance at the meeting of Ray of Hope Rebekah Lodge at Bellevue, when Sister Jackson installed the officers of that lodge.

Calgary experienced a violent hail and thunder storm on Tuesday morning.

A junior choir will attend the service at the United church on Sunday evening.

Mrs. Jessie Mansfield, of Elk Prairie, died at Fernie on July 1st of cancer.

Thomas Cherry returned last week end, after a year or more residence at Vancouver.

Mrs. E. L. Johnston and children, of Medicine Hat, are the guests here of Mr. and Mrs. Picard.

F. R. Lilly, a native of Newfoundland, died at Strathmore last week, following a lingering illness.

Mr. F. Wright returned to town from Calgary on Friday last, after an absence of close on a year.

Clarence Reddick has returned to Trail, after a several days' visit here. Mrs. Reddick remaining here with her mother for a while.

The Christian Science Monitor, published at Boston, remarks: "Another alliteration which is popular across the American border is: Canadian Coal for Canadians."

It has been said that whatever is free is not appreciated. Try and tell that to the motorist stuck with a flat tire on a hot day five miles from the nearest "free air" station.

Twenty years ago, the Presbyterian Assembly was conducting church union committee work and sent down proposals to the subordinate courts and the Anglican and Baptist congregations.

The first passenger train on the new Glenwood-Cardston branch line will make the trip tomorrow. The service will prove of great convenience to residents along the line and to travellers.

The interior of the United Church has been very tastefully decorated by Hughes & Berlin and is quite clean looking and attractive. An effort will be made to similarly treat the exterior at an early date.

Mrs. William Flinn, Misses Margaret, Mae and Ruby, and Ernest and Harry, of Lethbridge, passed through Blairmore on Monday by motor for California, where they expect to holiday for about five weeks.

The report of the Newfoundland Liquor Control Board for the year ended January 31st, 1927, shows a surplus for the year of \$395,675.08, as against \$285,276.93 for the year previous. \$3,927.62 was collected in fines during the year.

The Church of England assemblies of bishops, clergy and laity meeting, at London, have accepted the Revised Book of Common Prayer by large majorities. The book now goes to parliament, which can either accept or reject, but cannot amend.

The town of Vulcan and Rocky Mountain House were hit by severe hail and wind storms on Friday afternoon. At Rocky Mountain House a number of buildings were blown down and several people injured. At Vulcan, hail stones did some damage. De Winton was also hit slightly and crops in the district east of that point were considerably damaged.

What is reported as the best game of baseball ever witnessed in this district was played at Coleman on Sunday afternoon last, the competing teams being Coleman and Fernie seniors. A splendid brand of stuff was dished up and was witnessed by a large crowd of fans. The score was four to three in favor of Coleman. Capt. Jesse Hind, handled the game.

Capt. Jesse Hind and Mrs. Hind have arrived to take over the Salvation Army work in this territory. Capt. Hind is a native of England, but comes here from Winnipeg. Mrs. Hind was a former resident of Calgary. Capt. Watt has joined the forces of No. 3 at Calgary. Capt. Hind is one of the fifty-three new officers sent out by the commissioner from Winnipeg.

Local and General Items

Mr. John Lewis, organizer for the U. M. W. of A., was a visitor to The Pass this week.

The 1928 convention of the British Columbia Grand Lodge of Elks will be held at Fernie.

Some men expect others to agree with them, even when they don't agree with themselves.

Mr. and Mrs. D. A. Perry have their niece, Miss May, visiting them.—Strathmore Standard.

FORD TOURING CAR For Sale. Cheap for cash. In first-class shape. Newly painted.—W. M. Bush.

What did Wrigley say when he gave George Young the twenty-five thousand dollars for the Catalina swim? "There—buy gum!"

Two men are dead and a third is not expected to live as the result of a storm which swept the Wetaskiwin district on Friday night last.

The contract for the laying of a drainage pipe along the lane in block 17 and 18 has been awarded to Sartoris & Biell, who already have the job well in hand.

We understand that the vacancy on the Frank teaching staff, caused through the resignation of Miss Annie Penman, is to be filled for the fall term by Miss Mary Kroll.

The marriage of Mr. Irvine, of the Frank C.P.R. staff, to Miss Fitzgerald, late of the Blairmore teaching staff, was solemnized by Rev. A. D. Currie at Coleman last week.

Kevin O'Higgins, vice-president of the council of ministers, minister of justice and of foreign affairs, was murdered by three unknown assassins at Dublin on Sunday. Three arrests have since been made.

The Cardston school board has decided to make a change in the management of the schools, so that Mr. J. W. Low becomes principal of the high school, and Mr. Edward Low principal of the public school.

Mr. and Mrs. P. W. Kuschel and family, former proprietor of the Alberta hotel here, but now of Warner, Alberta, passed west through Blairmore on Friday last, motoring over the Banff-Windermere highway.

JOHN F. MILLER, eyesight specialist of 404 Underwood Block, Calgary, will be in Blairmore at the Blairmore Pharmacy on Tuesday, July 19th, for the purpose of correcting yours and your children's eyes. Do not miss this opportunity.

We understand that Mr. C. B. Barrell, for several years night manager of the Yale hotel at Calgary, is to succeed Mr. Harper as manager of the Greenhill hotel here, taking over the duties in the next few days. Mr. Barrell has had considerable experience in hotel management and will no doubt make a success in his new post.

Once again the Elks have come to the assistance of the local arena, this time to the extent of \$500. It has repeatedly been intimated that the arena should be municipally owned, and we firmly believe that under municipal ownership the burden would not be great to the taxpayers of our community and could be perhaps made available to our young people at even less cost than up to the present.

At the annual convention of the Native Sons of Canada, held at the Palliser hotel, Calgary, on Tuesday, H. D. Ansley, of Edmonton, was elected to succeed C. F. Jamieson as national president. Dr. James H. Cotton, Toronto, was elected first vice-president; Dr. J. H. McDougall, Regina, second vice-president; Arthur Pike, Victoria, treasurer, and R. D. MacLachlan, Victoria, secretary (re-elected). At the convention, Mr. G. G. Coote, M.P. for Macleod, was responsible for a strong resolution against assisted immigration of any kind.

A. Placek, proprietor of the Orpheum Theatre, was a business visitor to Calgary on Tuesday.

Mr. E. Forster Brown has served twenty-one years continuous service as secretary-treasurer of the town of Macleod.

The regular meeting of the town council takes place on Monday night next. At this meeting the mill rate for the year 1927 will be set.

J. McAndrew and family, Marshall Hamilton and family and Arthur Grant and family were week-end campers near race Horse Creek.

The C.G.I.T. girls returned from camp on Monday last, all reporting having had a fine time. A report of their activities will be found in another column.

The annual conference of the Native Sons of Canada opened at the Palliser hotel, Calgary, on Tuesday, attended by representatives from all parts of Canada.

A local boy, who has been wondering how corn beef was made, has satisfied himself by visiting a ranch north of Lundbreck, where he saw cattle licking rock salt.

The Prince of Wales, his younger brother Prince George and Premier Baldwin are scheduled to sail from England on the Empress of Australia, the greatest ocean leviathan to ever enter the St. Lawrence, on July 23rd.

Valentino Rinaldi has returned from camp much improved in health. Val complains that the fish in the North Fork river are not sufficiently hot-blooded to keep the water at the desired temperature for a weakling such as he.

Miss Florence E. Cox has been appointed to succeed Miss Foster as a member of the Coleman teaching staff. Miss Cox is a sister of Miss Dorothy Cox, of the Blairmore staff, and has for some time been teaching near Lundbreck.

Romeo Rinaldi and D. Quintilla, of Bellevue, have been adjudged champion macaroni eaters in that community and now issue a challenge to the world. Either claims that following a fast of three days' duration, he is capable of making a two-gallon dish of properly cooked "macaroni" look like five cents.—Adv.

Mr. and Mrs. R. W. Bishop and two children, of Calgary, were guests for a few days of last week with Mr. and Mrs. J. S. Stevenson at the Cosmopolitan hotel here. They left by motor on Friday for Calgary, via Banff-Windermere and were accompanied by Mrs. Stevenson, who will visit for a while in Calgary.

REINDEER HERD FOR ALBERTA

Raising reindeer for commercial purposes in Canada will be undertaken on this year by the Doguine Reindeer Company, with headquarters at Vancouver, which has imported some 5000 head of reindeer from Alaska. This herd will be located on the vast grazing areas between the Athabasca and Great Slave Lakes, where the company has secured over three million acres for this purpose.

SPEND MONEY AT HOME

Taking vacations or holidays as they are called in Europe, in a foreign place, is practically under the ban in Italy. It is in fact a misdemeanor to spend a vacation outside of that country without first arranging for it properly. Passports are being issued only for urgent and necessary reasons, as a rule, and those who take "French Leave" and spend their holidays across the border may expect to see themselves listed in the newspapers as "Not Doing Their Duty." The object is to keep Italian money at home.

Pincher Creek Elks will hold their annual summer carnival on Tuesday and Wednesday of next week.

Mr. and Mrs. Fred Stokes, now residing north-west of Edmonton, are visiting old friends in Coleman.

Miss Beale Passmore is holidaying for the summer with her sister, Miss Mildred, at the Pacific coast.

Rev. Fathers Cosman, Harrington and Donovan returned last week end from the annual retreat at Cluny.

The road through the North Fork Gap is being considerably improved under the supervision of Mr. Nash.

It is now expected that the new Prince of Wales hotel at Waterton park will be ready for official opening on July the 25th.

The first of a series of dances to be staged by the Elks will take place at the arena on Friday night of next week. For further particulars, see bills.

A safety pin and powder puff, picked up near the North Fork Gap, may be had by the owner calling at our office and paying ten dollars for this notice.

Miss Jean Kemp has returned from a several weeks' visit to Vancouver, and has assumed her duties in the general office of the West Canadian Collieries.

Sublime to the ridiculous: A woman thinks it's sublime to see a flapper waddling along the trail in skirts no larger than the old-time stocking, and just as ridiculous to see that flapper hanging onto the wing of something wearing suit cloth enough to cover a score of flappers at the flapper rate.

A BUCKET OF SOAP
